

Introducing the Army Scoot by Uratech™ The Ultimate CNC Tool Cart for Every Workshop

In the world of CNC machining, tool organization is crucial for both productivity and safety. Uratech, a leader in high-quality CNC tool storage solutions, has designed the [**Army Tool Scoot**](#), a specialized CNC tool cart built to meet the rigorous demands of machine shops, factories, and industrial settings. Engineered for versatility, durability, and ease of use, the Army Scoot can hold up to **70 tool holders** and is compatible with all major types of CNC holders, including CAT, BT, HSK, DV, NMTB, ISO, VDI, KM, and Capto.

Whether you're managing an extensive inventory of CNC tools or need a reliable storage solution that's easy to maneuver around the workshop, the Army Scoot is designed to support heavy-duty applications, boasting a robust design that can withstand up to **4000 lbs** of load. Let's explore what makes the Army Scoot an ideal addition to any CNC workspace.

Key Features of the Army Scoot CNC Tool Cart

1. Universal Compatibility for CNC Holders

- o The Army Scoot is engineered to be compatible with a broad range of CNC holders, making it versatile enough to suit any workshop setup. The cart can hold 70 tools of various sizes and types, including CAT, BT, HSK, DV, NMTB, ISO, VDI, KM, and Capto holders, ensuring that your tools are organized and protected no matter the tool type.

2. Built to Last - Cold-Rolled, Powder-Coated Steel

- o Crafted from **16-gauge cold-rolled steel**, the Army Scoot's structure is built to withstand even the most demanding industrial environments. The powder-coated finish provides added protection against rust and wear, making this tool cart a lasting investment in your workspace.

3. Smooth Mobility with High-Quality Castors

- o Equipped with **smooth-rolling castors**, the Army Scoot is ideal for industrial shop floors, allowing for effortless movement between workstations. The castors are designed to glide over hard industrial surfaces, reducing wear on the cart and enabling fast and easy transport of tools, even with a full load.

4. Protective Red Nylon Inserts

- o Tool protection is a top priority, which is why the Army Scoot is designed with **durable red nylon inserts**. These inserts provide a secure fit for each tool holder, preventing scratches, dings, and other damage during storage and transport. Your tools stay secure and in pristine condition, ready for optimal performance.

5. Enhanced Usability with Anodized Aluminum Handle

- o For smooth handling and durability, the Army Scoot features an anodized aluminum handle that ensures a firm and comfortable grip. The lightweight yet robust handle makes maneuvering the cart easy, even when fully loaded.

6. Added Storage with Front and Bottom Trays

- o Practical storage is enhanced with a small front tray for tools and frequently used items and a larger bottom tray for consumables. These trays ensure that everything you need is within reach, saving you time and keeping your workspace organized.

7. Easy Assembly in Just Six Steps

- o With simple assembly in **six easy steps**, the Army Scoot is quick and convenient to set up. Our user-friendly design makes it easy to have your new CNC tool cart up and running with minimal effort, allowing you to focus on what matters - enhancing productivity in your workshop.

Why Choose the Army Scoot by Uratech?

70-Tool Capacity: Organize and transport up to 70 CNC tools.

Heavy-Duty Build: Crafted from 16-gauge cold-rolled steel, supporting up to 4000 lbs.

Universal Compatibility: Holds CAT, BT, HSK, DV, NMTB, ISO, VDI, KM, and Capto holders.

Red Nylon Inserts: Protects tool holders during storage and transport.

Effortless Maneuverability: Smooth castors for easy movement on industrial floors.

Easy Assembly: Set up in six simple steps.

Immediate Shipping: Same-day dispatch within North America, with global shipping available.

The Army Scoot is the ultimate CNC tool storage cart, meticulously designed to keep your workspace efficient and organized. For more information on the Army Scoot or to place an order, reach out to our team. Call **1-800-813-0537** or email info@cnctoolstoragesolutions.com. We're here to help you find the perfect CNC tool storage solution for your needs.

Invest in Efficiency and Durability with the Army Scoot CNC Tool Cart by Uratech.

The Army Scoot by Uratech provides the robustness, mobility, and compatibility every professional CNC workshop needs. Invest in a CNC tool cart that's built to enhance your workflow, protect your tools, and withstand even the most challenging industrial conditions. Call or email us today, and see how the Army Scoot can elevate your workshop's efficiency and organization.

Fast & Reliable Shipping Across North America & Worldwide

At Uratech, we understand the importance of prompt and reliable delivery. We offer **same-day shipping** to customers in the **USA, Canada, and Mexico**, ensuring that your business operations remain uninterrupted.

Additionally, we provide **worldwide shipping**, allowing industries across the globe to benefit from our high-quality storage solutions.

Stocked in New York, USA and Ontario, Canada for Immediate Availability :

Our warehouse in **New York, USA and Ontario, Canada** maintains an extensive inventory of **CNC** tool storage products. This ensures that our customers receive their orders quickly, reducing downtime and improving productivity.

Orders from USA and Mexico will be shipped and invoiced from Uratech USA Inc, 4947 Lockport road, #3, Lockport, New York , USA 14094

Orders from Canada and the rest of the world will be shipped from Uratech Tooling Technologies Inc, 142 Foamflower place, #21, Waterloo, Ontario, Canada N2V 0J1
