

## Cutting Tool Storage Systems – Precision Protection by Uratech

In modern machining environments, organization is not just about cleanliness . it directly impacts productivity, tool life, and operational efficiency. High-quality cutting tool storage systems are essential for protecting valuable CNC tooling and maintaining a streamlined workflow. That's where Uratech stands out.

Uratech designs and manufactures industrial-grade [CNC](#) tool storage systems engineered for durability, precision fit, and long-term performance in demanding shop environments.

### Engineered for All Major CNC Holder Types

Uratech storage systems are designed to accommodate a comprehensive range of CNC tool holders, including:

- CAT holders
- BT holders
- DV holders
- NMTB holders
- ISO taper holders
- CAPTO holders
- HSK holders
- VDI holders
- KM holders

Whether your shop operates vertical machining centers, horizontal machining centers, CNC lathes, or multi-axis systems, Uratech provides storage solutions tailored to your tooling specifications.

### Heavy-Duty Construction for Industrial Environments

Machining shops are high-traffic, high-impact environments. Uratech cutting tool storage systems are built from premium cold-rolled steel to withstand daily industrial use. These systems are:

- Heavy-duty and structurally reinforced
- Designed to handle high tool weight capacity
- Built to resist bending, warping, or deformation
- Suitable for both stationary and mobile applications

From wall-mounted racks to freestanding cabinets and rolling carts, every system is engineered to maintain structural integrity under continuous use.

### Durable Powder-Coated Finish

All Uratech [CNC tool storage systems](#) feature a high-quality powder-coated finish. This provides:

- Superior resistance to corrosion and rust
- Protection against shop oils, coolants, and chemicals
- Long-lasting surface durability
- Professional industrial appearance

The powder coating ensures the storage system remains clean, resilient, and visually professional even in harsh machining conditions.

### Nylon Inserts for Maximum Tool Protection

Precision tooling represents a significant investment. Uratech integrates high-quality nylon inserts into its storage systems to protect CNC holders from damage.

Benefits include:

- Prevention of metal-to-metal contact
- Protection against scratches and surface wear
- Secure holder positioning
- Reduced vibration during movement

The red nylon inserts not only protect tooling but also enhance visibility and organization within the storage system.

#### Improved Shop Efficiency and Organization

An organized tooling system directly improves productivity. Uratech cutting tool storage systems help machine shops:

- Reduce tool search time
- Prevent tooling mix-ups
- Extend tool holder life
- Maintain a cleaner and safer workspace
- Optimize floor space utilization

Proper storage also minimizes accidental damage, helping shops reduce replacement costs and downtime.

#### Custom CNC Tool Storage Solutions

Every machine shop has unique requirements. Uratech offers customizable storage solutions to match:

- Specific holder taper sizes
- Tool quantity requirements
- Shop floor layout
- Wall-mounted, cabinet, drawer, or cart configurations
- Custom color and configuration options

Whether outfitting a small job shop or a large manufacturing facility, Uratech provides scalable solutions designed to grow with your operations.

#### Why Choose Uratech Cutting Tool Storage Systems?

- Precision-engineered for all major CNC holder types
- Heavy-duty cold-rolled steel construction
- Corrosion-resistant powder-coated finish
- Protective nylon inserts for maximum tooling safety
- Customizable and scalable designs
- Manufactured for industrial performance and longevity

#### Invest in Tool Protection and Productivity

CNC tooling is a critical asset in any machining operation. Investing in high-quality cutting tool storage systems ensures protection, organization, and efficiency. Uratech combines strength, precision, and smart design to deliver storage solutions that meet the demands of modern manufacturing. For shops seeking durable, professional, and customizable CNC tool storage systems, Uratech provides the performance and reliability you can trust.

#### Fast & Reliable Shipping Across North America & Worldwide

At Uratech, we understand the importance of prompt and reliable delivery. We offer same-day shipping to customers in the USA, Canada, and Mexico, ensuring that your business operations remain uninterrupted.

Additionally, we provide worldwide shipping, allowing industries across the globe to benefit from our high-quality storage solutions.

Stocked in New York, USA and Ontario, Canada for Immediate Availability :

Our warehouse in New York, USA and Ontario, Canada maintains an extensive inventory of [CNC](#) tool storage products. This ensures that our customers receive their orders quickly, reducing downtime and improving productivity.

Orders from USA and Mexico will be shipped and invoiced from Uratech USA Inc, 4947 Lockport road, #3, Lockport, New York , USA 14094

Orders from Canada and the rest of the world will be shipped from Uratech Tooling Technologies Inc, 142 Foamflower place, #21, Waterloo, Ontario, Canada N2V 0J1

## About the Author

Uratech specializes in the design and manufacturing of CNC tool storage products and operates in two countries: in USA as Uratech USA Inc and in the Canada as Uratech Tooling Technologies Inc., We offer high-quality solutions to meet the needs of modern machine shops. Uratech is sincerely committed to providing customers with leading-edge technology.

Our primary objective is to meet or exceed customer expectations. We achieve this through efficient performance, quality workmanship, professionalism, competitive pricing, and on-time delivery. Above all, we emphasize the quality of work we deliver to fully satisfy our customers' needs. Products are stocked in New York, USA, and Ontario, Canada.

Orders from US and Mexico customers are shipped from Uratech USA Inc., New York.

Orders from Canada and all other countries are shipped from Uratech Tooling Technologies Inc., Ontario.
