

Uratech CNC Tool Tower

In today's high-demand machining environment, efficiency, organization, and protection of tooling are critical. The Uratech CNC Tool Tower is designed to meet these needs by providing a heavy-duty, space-saving, and secure storage solution for CNC tool holders used in modern machine shops.

Designed for Maximum Efficiency

The Uratech CNC [Tooltower](#) helps machine shops optimize floor space while keeping cutting tools organized and easily accessible. Its vertical tower design maximizes storage capacity within a compact footprint, making it ideal for:

- CNC machining centers
- Tool rooms
- Production facilities
- Maintenance departments

By keeping tools properly arranged, the Uratech CNC Tool Tower reduces downtime, improves workflow, and enhances overall shop productivity.

Compatible with All Major CNC Tool Holders

Uratech designs and manufactures CNC tool storage systems compatible with a wide range of industry-standard tool holders, including:

- CAT (V-Flange)
- BT
- DV
- NMTB
- ISO Type
- CAPTO
- HSK
- VDI
- KM

This versatility makes the Uratech [CNC](#) Tool Tower suitable for both small machine shops and large-scale manufacturing facilities.

Heavy-Duty Construction

Built from high-quality cold-rolled steel, the Uratech CNC Tool Tower is engineered for durability and long-term use in demanding industrial environments. Key construction features include:

- Reinforced steel frame for maximum strength
- High load-bearing capacity
- Stable base design for safe operation
- Industrial-grade hardware

Whether storing lightweight holders or heavy-duty assemblies, the tower maintains structural integrity and stability.

Premium Powder-Coated Finish

Each Uratech CNC Tool Tower features a high-quality powder-coated finish that provides:

- Corrosion resistance
- Protection against wear and tear
- Long-lasting durability
- Professional appearance

Available in multiple colors, the tower complements modern workshop environments while maintaining a clean and organized look.

Protective Nylon Inserts

Tool holders represent a significant investment. To protect that investment, Uratech incorporates durable red nylon inserts into each storage position. These inserts:

- Prevent metal-to-metal contact
- Protect taper surfaces from scratches

- Reduce vibration and movement
- Extend tool holder lifespan

This added layer of protection helps maintain precision and accuracy in CNC machining operations.

Improve Shop Organization and Productivity

A well-organized shop improves safety, efficiency, and morale. The Uratech CNC Tool Tower:

- Reduces tool searching time
- Minimizes damage to expensive holders
- Enhances workplace safety
- Streamlines tool management

By centralizing tool storage, machine operators and supervisors can maintain better control over inventory and workflow.

Why Choose Uratech?

Uratech specializes in designing and manufacturing high-quality CNC tool storage systems tailored to modern machining needs. With a focus on durability, precision, and innovation, Uratech products are trusted by manufacturers worldwide.

The Uratech CNC Tool Tower is more than just a storage unit . it is a smart investment in efficiency, protection, and professional shop organization.

For distributors and machine shops looking for reliable CNC tool storage solutions, Uratech delivers performance, strength, and long-term value.

Fast & Reliable Shipping Across North America & Worldwide

At Uratech, we understand the importance of prompt and reliable delivery. We offer same-day shipping to customers in the USA, Canada, and Mexico, ensuring that your business operations remain uninterrupted.

Additionally, we provide worldwide shipping, allowing industries across the globe to benefit from our high-quality storage solutions.

Stocked in New York, USA and Ontario, Canada for Immediate Availability:

Our warehouse in New York, USA and Ontario, Canada maintains an extensive inventory of CNC tool storage products. This ensures that our customers receive their orders quickly, reducing downtime and improving productivity.

Orders from USA and Mexico will be shipped and invoiced from Uratech USA Inc, 4947 Lockport road, #3, Lockport, New York, USA 14094

Orders from Canada and the rest of the world will be shipped from Uratech Tooling Technologies Inc, 142 Foamflower place, #21, Waterloo, Ontario, Canada N2V 0J1

About the Author

Uratech specializes in the design and manufacturing of CNC tool storage products and operates in two countries: in USA as Uratech USA Inc and in the Canada as Uratech Tooling Technologies Inc., We offer high-quality solutions to meet the needs of modern machine shops. Uratech is sincerely committed to providing customers with leading-edge technology.

Our primary objective is to meet or exceed customer expectations. We achieve this through efficient performance, quality workmanship, professionalism, competitive pricing, and on-time delivery. Above all, we emphasize the quality of work we deliver to fully satisfy our customers' needs. Products are stocked in New York, USA, and Ontario, Canada.

Orders from US and Mexico customers are shipped from Uratech USA Inc., New York.

Orders from Canada and all other countries are shipped from Uratech Tooling Technologies Inc., Ontario.
