

ToolScoot Tree – HSK 63F Toolholders by Uratech

When it comes to organizing high-precision tooling, the ToolScoot Tree - HSK 63F Toolholders from Uratech USA Inc delivers unmatched durability, efficiency, and protection. Designed specifically for HSK 63F holders used in high-speed machining applications, this heavy-duty CNC tool storage system helps machine shops maximize productivity while protecting valuable tooling investments.

Purpose-Built for HSK 63F Toolholders

[HSK63F](#) toolholders are widely used in high-speed CNC machining, especially in woodworking, aerospace, and precision manufacturing industries. Because of their taper design and high clamping accuracy, proper storage is critical to maintain balance, taper integrity, and spindle performance. The ToolScoot Tree is engineered exclusively for HSK 63F toolholders, ensuring:

- Secure, precision-fit storage
- Balanced weight distribution
- Reduced risk of taper damage
- Easy access during tool changes
- Organized workflow around CNC machines

Heavy-Duty Construction for Industrial Environments

Uratech designs and manufactures all CNC tool storage systems using industrial-grade cold-rolled steel, built to withstand harsh shop-floor conditions. The ToolScoot Tree features:

- Solid welded steel construction
- Powder-coated finish for corrosion resistance
- High load-bearing capacity
- Stable base for shop mobility and safety

The premium powder coating not only enhances durability but also gives the unit a clean, professional appearance suitable for modern machine shops.

Nylon Inserts for Maximum Protection

Unlike generic tool racks, the ToolScoot Tree incorporates high-quality nylon inserts to protect your HSK 63F holders. These inserts:

- Prevent metal-to-metal contact
- Reduce wear on precision tapers
- Minimize vibration during storage
- Extend the life of expensive tooling

For shops running high-speed spindles, protecting taper accuracy is not optional. it's essential. Uratech understands this and builds protection directly into every storage solution.

Optimized for Productivity

Time is money in [CNC](#) machining. The ToolScoot Tree is designed for quick visual identification and fast tool retrieval, helping operators:

- Reduce tool change time
- Improve shop organization
- Minimize misplaced tooling
- Increase workflow efficiency

Whether positioned beside machining centers or inside a tool preparation area, this storage tree keeps HSK 63F holders organized and ready for

action.

Designed and Manufactured by Industry Experts

With years of experience in CNC tool storage solutions, Uratech USA Inc specializes in systems compatible with:

CAT taper holders

BT holders

HSK series

CAPTO

VDI

KM systems

Every product is designed with machinists in mind. strong, practical, and built for real-world shop environments.

Why Choose ToolScoat Tree for HSK 63F?

? Heavy-duty industrial steel construction

? Durable powder-coated finish

? Protective nylon inserts

? Precision fit for HSK 63F toolholders

? Improved shop organization

? Long-term tooling protection

Upgrade Your CNC Tool Storage Today

Investing in proper storage for HSK 63F toolholders protects your spindle performance, improves workflow efficiency, and reduces costly tool damage. The ToolScoat Tree by Uratech is not just a rack. it's a productivity solution built for modern CNC operations.

Contact Uratech today to learn more about the ToolScoat Tree - HSK 63F Toolholders and discover how professional CNC tool storage can transform your shop floor efficiency.

Fast & Reliable Shipping Across North America & Worldwide

At Uratech, we understand the importance of prompt and reliable delivery. We offer same-day shipping to customers in the USA, Canada, and Mexico, ensuring that your business operations remain uninterrupted.

Additionally, we provide worldwide shipping, allowing industries across the globe to benefit from our high-quality storage solutions.

Stocked in New York, USA and Ontario, Canada for Immediate Availability :

Our warehouse in New York, USA and Ontario, Canada maintains an extensive inventory of CNC tool storage products. This ensures that our customers receive their orders quickly, reducing downtime and improving productivity.

Orders from USA and Mexico will be shipped and invoiced from Uratech USA Inc, 4947 Lockport road, #3, Lockport, New York , USA 14094

Orders from Canada and the rest of the world will be shipped from Uratech Tooling Technologies Inc, 142 Foamflower place, #21, Waterloo, Ontario, Canada N2V 0J1

About the Author

Uratech specializes in the design and manufacturing of CNC tool storage products and operates in two countries: in USA as Uratech USA Inc and in the Canada as Uratech Tooling Technologies Inc., We offer high-quality solutions to meet the needs of modern machine shops. Uratech is sincerely committed to providing customers with leading-edge technology.

Our primary objective is to meet or exceed customer expectations. We achieve this through efficient performance, quality workmanship, professionalism, competitive pricing, and on-time delivery. Above all, we emphasize the quality of work we deliver to fully satisfy our customers' needs. Products are stocked in New York, USA, and Ontario, Canada.

Orders from U.S. and Mexico customers are shipped from Uratech USA Inc., New York.

Orders from Canada and all other countries are shipped from Uratech Tooling Technologies Inc., Ontario.
