

## CAPTO C6 CNC Tool Storage Solutions by Uratech

In high-performance machining environments, protecting your tooling investment is just as important as selecting the right spindle and cutting strategy. **CAPTO C6 toolholders** are widely used in precision CNC machining for their rigidity, modularity, and quick-change capability. To keep these premium holders organized, protected, and production-ready, **Uratech** designs and manufactures heavy-duty **CAPTO C6 CNC tool storage systems** built for industrial use.

### Why Proper CAPTO C6 Tool Storage Matters

[CAPTOC6](#) holders are precision-engineered components. Improper storage can lead to:

- Taper damage
- Surface scratches
- Contamination from chips and coolant
- Reduced tool life
- Lost productivity due to disorganization

Uratech's CAPTO C6 storage systems are designed to eliminate these risks while improving workflow efficiency in CNC machine shops.

### Heavy-Duty Construction Built for Shop Floors

Uratech manufactures CAPTO C6 CNC tool storage carts, racks, and towers using:

- Cold-rolled steel construction** for structural strength
- Industrial-grade powder-coated finish** to resist corrosion and coolant exposure
- Reinforced frames** for high load capacity
- Heavy-duty casters** (on mobile units) for smooth shop mobility

These storage systems are built to handle demanding manufacturing environments in both small shops and large production facilities.

### Nylon Inserts for Maximum Tool Protection

Each CAPTO C6 tool storage slot includes durable **red nylon inserts** designed to:

- Protect precision tapers
- Prevent metal-to-metal contact
- Reduce vibration during movement
- Extend the life of expensive tooling

This attention to detail ensures your CAPTO C6 holders remain in optimal condition, ready for immediate use.

### Multiple Storage Configurations Available

Uratech offers flexible CAPTO C6 CNC tool storage options, including:

- [CNC](#) tool carts
- Tool towers
- Wall-mounted racks
- ToolScoot mobile storage systems

Capacities vary depending on the model, allowing machine shops to scale storage based on tooling inventory and production requirements.

### Improve Shop Efficiency with Organized Tooling

Proper CAPTO C6 storage improves:

- Faster tool identification
- Reduced setup time
- Better 5S implementation
- Cleaner, safer workspaces
- Inventory control and asset protection

When tools are organized and accessible, machine downtime decreases and productivity increases.

### **Designed for Industrial CNC Applications**

Uratech designs CAPTO C6 CNC tool storage systems for industries such as:

- Aerospace machining
- Automotive manufacturing
- Oil & gas component production
- General precision machining

Every product is engineered with real-world machining challenges in mind.

### **Why Choose Uratech for CAPTO C6 CNC Tool Storage?**

- Specialized in CNC tool storage solutions
- Manufactured with heavy-duty steel construction
- Powder-coated for long-term durability
- Protective nylon inserts standard
- Available in USA and Canada
- Designed specifically for CAPTO C6 holders

Uratech combines durability, protection, and functionality to deliver storage solutions that match the performance level of your CAPTO tooling.

### **Upgrade Your CAPTO C6 Tool Organization Today**

Investing in proper CAPTO C6 CNC tool storage protects your tooling, increases efficiency, and enhances overall shop productivity. Uratech's engineered storage systems ensure your CAPTO C6 holders remain secure, organized, and ready for high-performance machining.

For durable, industrial-grade CAPTO C6 CNC tool storage solutions, Uratech delivers strength, protection, and reliability built for modern manufacturing environments.

**Fast & Reliable Shipping Across North America & Worldwide**

At Uratech, we understand the importance of prompt and reliable delivery. We offer same-day shipping to customers in the USA, Canada, and Mexico, ensuring that your business operations remain uninterrupted.

Additionally, we provide worldwide shipping, allowing industries across the globe to benefit from our high-quality storage solutions.

**Stocked in New York, USA and Ontario, Canada for Immediate Availability :**

Our warehouse in New York, USA and Ontario, Canada maintains an extensive inventory of CNC tool storage products. This ensures that our customers receive their orders quickly, reducing downtime and improving productivity.

Orders from USA and Mexico will be shipped and invoiced from Uratech USA Inc, 4947 Lockport road, #3, Lockport, New York , USA 14094

Orders from Canada and the rest of the world will be shipped from Uratech Tooling Technologies Inc, 142 Foamflower place, #21, Waterloo, Ontario, Canada N2V 0J1

## About the Author

Uratech specializes in the design and manufacturing of CNC tool storage products and operates in two countries: in USA as Uratech USA Inc and in the Canada as Uratech Tooling Technologies Inc., We offer high-quality solutions to meet the needs of modern machine shops. Uratech is sincerely committed to providing customers with leading-edge technology.

Our primary objective is to meet or exceed customer expectations. We achieve this through efficient performance, quality workmanship, professionalism, competitive pricing, and on-time delivery. Above all, we emphasize the quality of work we deliver to fully satisfy our customers' needs. Products are stocked in New York, USA, and Ontario, Canada.

Orders from U.S. and Mexico customers are shipped from Uratech USA Inc., New York.

Orders from Canada and all other countries are shipped from Uratech Tooling Technologies Inc., Ontario.
