

## CAPTO C6 CNC Tooling Scoot – Efficient CNC Tool Holder Storage Solution

The CAPTO C6 CNC Tooling Scoot by Uratech is a reliable and efficient storage solution created for modern CNC machining environments. Designed specifically for CAPTO C6 tool holders, this tooling scoot helps machine shops improve organization, protect valuable tooling, and streamline daily production operations. With a strong industrial design and easy mobility, it is an ideal addition to manufacturing facilities that require efficient tool management and quick access to CNC tooling.

```

scroll-mt-[calc(var(--header-height)+min(200px,max(70px,20svh)))]" dir="auto">
```

In busy machining environments, organized tooling storage plays a major role in maintaining productivity and reducing setup times. The CAPTO C6 Tooling Scoot allows operators to store and transport tools safely while keeping them easily accessible during machining processes. Its mobile design makes it convenient to move tooling between machines, setup stations, and storage areas without difficulty.

Constructed with durable heavy-duty steel, the [cnc tooling cart](#) is built to withstand demanding industrial conditions. The robust frame provides long-lasting performance while supporting the weight of multiple CNC tool holders. A high-quality powder-coated finish adds protection against corrosion, coolant exposure, and everyday shop wear, helping maintain durability over time.

The tooling scoot features an ergonomic tray layout that improves visibility and accessibility for machine operators. The angled storage design allows users to quickly identify and retrieve tooling, improving workflow efficiency and reducing unnecessary downtime. Protective inserts securely hold CAPTO C6 tool holders in place, minimizing movement and reducing the risk of damage during transport or storage.

Smooth mobility is another important feature of the Uratech tooling scoot. Equipped with industrial-grade casters, the cart can be moved easily across shop floors while maintaining stability during operation. Locking wheels provide additional safety by keeping the cart securely positioned when stationary. Its compact footprint also helps maximize available floor space in crowded machining facilities.

The CAPTO C6 CNC Tooling Scoot is suitable for a wide range of industrial applications including CNC machining centers, manufacturing plants, tool rooms, and precision engineering workshops. By improving organization and reducing clutter, it helps create a cleaner and more productive work environment.

Key Benefits of the CAPTO C6 CNC Tooling Scoot:-

- Designed for CAPTO C6 CNC tool holders
- Heavy-duty steel construction for durability
- Mobile tooling storage for machining facilities
- Improves CNC shop organization and efficiency
- Ergonomic angled trays for easy tool access
- Protective inserts help prevent tooling damage
- Smooth-rolling industrial casters
- Locking wheels for secure positioning
- Powder-coated finish for corrosion resistance
- Space-saving and compact design
- Ideal for CNC machining and manufacturing operations
- Helps reduce downtime and improve workflow

The Uratech CAPTO C6 CNC Tooling Scoot combines durability, mobility, and efficient storage into one professional tooling solution. It is designed to support modern CNC operations by keeping tooling organized, protected, and ready for production at all times.

Fast & Reliable Shipping Across North America & Worldwide

At Uratech, we ensure quick and reliable delivery to support uninterrupted machining operations. We offer same-day shipping across the USA, Canada, and Mexico, along with worldwide delivery for global customers.

Our products are stocked in New York, USA and Ontario, Canada, allowing faster order processing and reduced downtime for machine shops.

Warehouse Locations

USA: Uratech USA Inc, Lockport, New York

Canada: Uratech Tooling Technologies Inc, Waterloo, Ontario

## About the Author

Uratech specializes in the design and manufacturing of CNC tool storage products and operates in two countries: in USA as Uratech USA Inc and in the Canada as Uratech Tooling Technologies Inc., We offer high-quality solutions to meet the needs of modern machine shops. Uratech is sincerely committed to providing customers with leading-edge technology.

Our primary objective is to meet or exceed customer expectations. We achieve this through efficient performance, quality workmanship, professionalism, competitive pricing, and on-time delivery. Above all, we emphasize the quality of work we deliver to fully satisfy our customers' needs. Products are stocked in New York, USA, and Ontario, Canada.

Orders from US and Mexico customers are shipped from Uratech USA Inc., New York.

Orders from Canada and all other countries are shipped from Uratech Tooling Technologies Inc., Ontario.
